## **BOOK SYNOPSIS**

After the Second World War, Japanese toy makers made tinplate replicas of many American and European cars, often reaching surprising heights of realism. Today, these tin cars are the most desirable of all vintage toys, fetching prices at auction in excess of diecast cars such as Dinky Toys. Seeking out the finest examples of these toys has been a lifelong passion for Bruce Sterling of New York, who has allowed his collection to be pictured in this volume. 150 of the rarest and best toys are shown, all of them in pristine condition with their original boxes. Cadillac, Chevrolet, Buick, Packard and many other famous American names are represented, in addition to a good selection of European vehicles. All the toys are described in detail, and background information is provided about the prototypes on which they are based. A guide to current values is also given. This is a book that will be treasured, not only by specialist collectors, but by all who are passionate about vintage toys and classic vehicles.
